BC V3R5R7, CAN

## CAREER SUMMARY & OBJECTIVE

An energy planner and modeling aspirant with a decade of industry experience spanning the public and private sectors of Bangladesh and the crown corporation of British Columbia, Canada. In addition to my core expertise, I have a strong interest in open-source modelling and techno-commercial aspects of clean power and energy systems.

I began my professional career in the private telecom sector and later moved to the state-owned telecom operator. After a four-year tenure in the telecom industry, I transitioned to the power sector by joining Bangladesh Power Development Board (BPDB), the largest government utility responsible for sectoral planning, policy formulation, power generation, transmission, and distribution. Currently, I work as an Energy Planner and Analyst with the Energy Planning Team of the Crown Corporation and largest provincial utility in British Columbia. Simultaneously, I am pursuing doctoral research at the [Delta-E+ Research Lab](#) of Simon Fraser University (SFU), British Columbia, where I explore integrated energy system modeling approaches.

## CORE COMPETENCIES

- Energy Systems Modelling.
- Cultural Adaptability.
- Prioritization Based Organized Multitasking.
- Analytical Thinking.
- Data Visualization.
- Knowledge Mobilization and Public Speaking.
- Collaborative Team Player.
- Quick Learner.
- Negotiation Skills.

## ACADEMIC CREDENTIALS

**Ph.D. in Sustainable Energy Engineering** Sep 2022 - Continuing  
10285 University Drive, Surrey, BC, Canada V3T 0N1.  
- **CGPA 4.08/4.33** (all graded coursework completed)

**Master of Business Administration (MBA) in Finance** Sep 2019  
University of Dhaka ([DU](#)), Bangladesh.  
- **CGPA 3.35/4.00** (*WES ECA ICAP equivalency*)

**Bachelor of Science in Electrical, Electronic & Communication Engineering (EECE)** Dec 2011  
Military Institute of Science & Technology ([MIST](#)), Bangladesh University of Professionals ([BUP](#)), Bangladesh.  
- **CGPA 3.50/4.00** (*WES ECA ICAP equivalency*)

## RESEARCH & PUBLICATIONS

- **01 journal paper** (2<sup>nd</sup> Author) in 2023, **03 journal papers** during 2019-2021 and **02 journal papers** in 2012.

\* List of *scholarly contributions*: [ORCID - 0000-0002-2042-3479](https://orcid.org/0000-0002-2042-3479)

## ACADEMIA EXPERIENCE

**PhD Researcher, Sustainable Energy Engineering**, Simon Fraser University Sep 2022 - Continuing  
[Delta-E+ Research Lab](#), 10285 University Drive, Surrey, BC, Canada V3T 0N1

- The primary focus of the research is to strategically combine energy system capacity expansion models and operational power system analysis to achieve cost-effective growth while maintaining reliability. The research is part of the [decarbonization of BC's Energy System](#) funded by [PICS](#).

**Teaching Assistant, Sustainable Energy Engineering**, Simon Fraser University Jan 2023 – Aug 2023  
Faculty of Applied Science (FAS), 10285 University Drive, Surrey, BC, Canada V3T 0N1.

- Undergraduate courses – ‘Electronic Devices and Systems ([SEE 231](#))’, MATLAB coding sessions on Signals and Systems ([SEE 341](#)).

**Energy Planner and Analyst (Consultant),** [Energy Planning](#), [BC Hydro](#)

May 2024 – Continuing

L 17, 333 Dunsmuir St, Vancouver, BC V6B 5R3.

- o Supported portfolio optimization modeling, data analytics, and infographic automation to inform the provincial [Integrated Resource Plan](#) (IRP), enhancing transparency and evidence-based decision-making.
- o Designed and implemented automated data processing templates to streamline modeling input preparation and developed sustainable comprehensive result analysis tools, enabling rapid scenario assessment and strategic decision support.

**Sub-Divisional Engineer (Planning),** Bangladesh Power Development Board ([BPDB](#))

Feb 2022 – Sep 2022

Directorate of System Planning, P&amp;D Wing, Head Quarter, Dhaka.

- o Was actively engaged with the JICA Study Team & Institute of Energy, Japan (IEJ) on the Integrated Energy & Power Master Plan (IEPMP) Project focused on demand forecast, scenario-based generation, capacity expansion planning, demand side management, and optimization models for least cost generation.

**Deputy Manager (Technical Services),**Bangladesh India Friendship Power Company Ltd. ([BIFPCL](#))

Mar 2021 – Feb 2022

Technical Services, Managing Director's Office, Head Quarter, Dhaka.

- o Developed an in-house tariff model, and day-to-day management activities, and was responsible for monitoring and implementation of a 1320 MW power project.

**Assistant Engineer (Planning),** Bangladesh Power Development Board ([BPDB](#))

Jan 2017 - Mar 2021

Directorate of System Planning, P&amp;D Wing, Head Quarter, Dhaka.

- o Contributed to the finalization of the Power System Master Plan for the revision of demand forecast, scenario-based generation, and demand side management.
- o Conducted software-based modeling for optimization of power generation & completed techno-commercial viability studies for more than 4,000 MW capacity addition to National Grid.

**Assistant Engineer (Electrical),** Bangladesh Power Development Board ([BPDB](#))

May 2016 - Jan 2017

Gopalganj 100MW Peaking Power Plant, Gopalganj.

- o Completed the SBU (Strategic Business Unit) formation of the generation plant and finalized levelized tariff model and Power Purchase Agreement (PPA) with the power purchaser, supervised the electrical maintenance team of Long-Term Service Agreement (LTSA) providers during O&M troubleshooting.

**Executive Engineer (Transmission),** [Teletalk Bangladesh Ltd.](#)

Dec 2015 - May 2016

System Operations, Head Quarter, Gulshan-1, Dhaka.

- o Ensured the Quality of Service (QoS) for transmission backbone operation and performed routine maintenance in Critical Node Devices.

**Executive Engineer,** [HRC Technologies Ltd.](#)

Jul 2012 - Dec 2015

O&amp;M, Core, Inter Operator Relationship (IOR) &amp; Network Operation Center, Head Quarter, Dhaka.

- o Ensured the Quality of Service (QoS) of the International Gateway (IGW) operation and developed a macro-backed automated platform for hourly monitoring and reporting.

**CONSULTANCY (SHORT TERM, REMOTE)**[Imperial Consultants \(ICON\)](#); London.

Jun-Jul 2023

- o OSeMOSYS Model Trainer and hands-on training resource material preparation for Summer School 2023 [ICTP](#), Trieste, Italy

**SOFT SKILLS**

- o Energy System Modelling Frameworks: [PyPSA](#), [OSeMOSYS](#), [CLEWS](#)
- o Programming Language: Python, [GNUMathprog](#)
- o [Data Analytics](#): Python, Excel Power Query and Pivot.
- o [Professional Reporting](#) and dynamic dashboard building with infographics on temporal and geospatial data.

**AWARDS**

- o **Graduate Fellowships** and **PhD Research Awards** worth more than **CAD 22,000** (during Sep 2022-May 2025).

- Pacific Institute of Climate Solutions ([PICS](#)), Canada's engineering **graduate scholar** for the [decarbonization of BC's Energy System](#) project (March 2022- March 2025). The scholarship was worth CAD 20,000/year.
- **Travel Grant as Trainer** of Energy Modelling Platform for Latin America and the Caribbean ([EMP-LAC](#)) **2023** at the University of Costa Rica, San José, San Pedro, Costa Rica; organized by Climate Compatible Growth ([CCG](#)).
- Master **Trainer** Certification by International Solar Alliance ([ISA](#)) from [NISE](#), India under the Indian Technical and Economic Cooperation ([ITEC](#)) Scholarship Program (2019).

## LEADERSHIP, MENTORSHIP, PROFESSIONAL MEMBERSHIPS & VOLUNTEER WORK EXPERIENCE

---

- **Workshop Facilitator**  
Led the *Open-source Energy Modelling Workshop* at [Clean Energy BC's GENERATE 2025](#) Conference.
- **Trainer and Technical Proficiency**  
Awarded **Silver Proficiency Badge** Trainer in Open-source Energy Modelling frameworks i.e. [OSeMOSYS](#) and [CLEWS](#).
- **Public Speaking and Panel Leadership**
  - Keynote Panel Speaker at:
    - IEEE PES General Meeting (GM) 2020, Montreal, Canada
    - IEEE PES GM 2022, Denver, Colorado, USA
    - Student Poster Judge (Power Utility Services), IEEE PES GM 2019, Atlanta, USA.
- **Mentorship and Advisory Roles**
  - Mentor & Jury Member, Clean Energy Projects, *Power & Energy Hackathon*, Power Division, Government of Bangladesh (GoB), April 2017.
- **Academic and Community Involvement**
  - Former Social Coordinator, *Sustainable Energy Engineering (SEE) Graduate Student Association*, Simon Fraser University (SFU), Surrey, BC.
  - Former Vice-President, *MIST Alumni Society* ([MISTAS](#))
  - Founding Member, *MIST Photographic Society* ([MISTPS](#))
- **Professional Training and Instruction**  
Former instructor at [BPDB](#) and [BIFPCL](#), Bangladesh for:
  - **Data Reporting & Analysis:** Infographic charts, Power Pivot, Power Query, Data Cleaning & Organization in MS Excel.
  - **Energy Planning & Forecasting:** Generation Planning, Demand Forecasting, and National Planning formulation.
  - **Professional Development:** Presentation skills, use of social media as a public servant, ethics as per GoB policy.
- **Professional Memberships**
  - Engineers and Geoscientists BC ([EGBC](#)) – Canada
  - Society of Petroleum Engineers ([SPE](#)-International) – BC, Canada
  - Institute of Electrical and Electronics Engineers ([IEEE](#))
    - IEEE Young Professionals
    - IEEE Power & Energy Society ([PES](#))
  - The Institution of Engineers, Bangladesh ([IEB](#)) – *Life Member*
